**DETAILED ACTION**

1. Claims 1-17 have been canceled, claims 18-22 have been added.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 15-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 18 recites the limitation "said first and second input signals are activated in respective time periods different from each other." The Examiner could not interpret the claim meaning. The applicant is requested to state more clearly how first and second input signals are activated by different time period.

Claims 19-22 are therefore rejected because of their dependency on claim 18.

4. There are no prior art cited at this time. Further examination will be conducted after claim is amended.
